No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 50c per bottle.

For
Torpid
Liver

"Black-Draught is, in my opinion, the best liver medicine on the market," states Mrs. R. H. White, of Keota, Okla. She continues: "I had a pain in my chest after eating—tight, uncomfortable feeling—and this was very disagreeable and brought on headache. I was constipated and knew it was indigestion and inactive liver. I began the use of Black-Draught, night and morning, and it sure is splendid and certainly gives relief."

Thedford's
BLACK-
DRAUGHT

For over seventy years this purely vegetable preparation has been found beneficial by thousands of persons suffering from effects of a torpid, or slow-acting liver. Indigestion, biliousness, colic, coated tongue, dizziness, constipation, bitter taste, sleeplessness, lack of energy, pain in back, puffiness under the eyes—any or all of these symptoms often indicate that there is something the matter with your liver. You can't be too careful about the medicine you take. Be sure that the name, "Thedford's Black-Draught," is on the package. At all druggists.

He stated to a reporter of this paper that he had received considerable encouragement and if the deal he had in mind went through he would open at popular prices of 10c and 20c.

Mr. Peter J. Gaffney who recently went to Brilliant, Ala., to roll "Sally" Woods on a short line run to the mines, unfortunately for Peter J. he was taken sick with the flu and returned home at once and has been ill ever since. However he is gaining daily and will soon be able to again handle the throttle. It is reported that Engineer Gaffney will take the south run of 33 and 34 when he is able to again report for work.

Rev. Wayne Alliston returned this week from a business trip to Jackson. While at Jackson, Rev. Alliston paid a visit to the Insane Asylum, and reports a most remarkable fact observed by him on this visit. He stated that there is not a single bald-headed inmate in the entire institution, and another observation he made was that more helpless the case, apparently the more vigorous growth of hair the poor unfortunate seemed to possess.

PRESIDENT OPENS FARM CONFERENCE

Secretary of Agriculture Wallace had the full personal support of President Harding in opening of the National Agriculture Conference at Washington. From the President down, all speakers agreed that agriculture is in a "bad way." The 325 delegates from all branches of agricultural activities, showed a decided willingness to take action on all recommendations made by Secretary Wallace. Provision for greater capital or farm loans received first attention. Pictures show (upper) Conference in session; arrows indicating the President and Secretary Wallace; (lower) President Harding walking from White House to conference, accompanied by private secretary Christian.

NORTH MAIN STREET
SCHOOL ENTERTAINMENT

Friday, Feb. 24, the teachers of Mothers Club or the mothers of this school, with a George Washington program, rendered by the children which was enjoyed by all of the large number of mothers present. Misses Loula Erickson, Vera Pearce, Margarette Williamson and Emma Addington are the estimable teachers of this school and represent the very word of hospitality.

Prof Dean the encouraging and whole hearted principal gave a nice talk to the children.

Mr. G. Davis president of our P.T. A. praised the mothers on their cordiality and interest in the school work. These certainly are very enthusiastic mothers, and they all invite the citizens of the City to attend these meetings and see how welcome they will surely make them feel and show them how very interested they are in P.T. A. work.

The teachers served tea and cake to all present.

INSURANCE CO. STARTS.

Mississippi Concern Has \$200,000 Paid Up Capital.

JACKSON, Miss., Feb. 27.—The Bankers and Merchants Fire Insurance Company with \$200,000 capital and surplus paid in, and an authorized capital of \$200,000 made the proper showing to commissioner Henry this afternoon and was authorized to begin business at once.

This company is entirely financed by Mississippi men and it is doubtful if a company of any kind this size has ever been organized in this state in so quick a time. The present need for insurance, and financial possibilities offered, were both incentives to the men who got behind the movement.

The following are the officers of the company: R. E. Kennington, president; John E. King, vice president; H. V. Watkins, second vice president; R. H. Green, third vice president; John E. Sevey, fourth vice president; J. M. Hartfield, treasurer; W. G. Sours, secretary.

The above officers with T. M. Hederman constitute an executive committee that will supervise and direct the affairs of the company.

The first policy of the company was written immediately upon the new wholesale business just organized by Hon. R. E. Kennington in Jackson.

A REAL GOVERNMENT OPPORTUNITY

It is hoped the passing of Will H. Hays into the movie world will not slow up the government effort to develop air communications with the millions of the American people residing in our rural districts. There is something impressive but also perhaps pitiable in noting the curious thousands of fad followers in thickly populated cities "listening in" to great broadcasting stations sending out their educational discourses and ragtime concerts while the welfare of the nation awaits the rapid and widespread transmission of useful information to the farmer. Science has wrested this great new wonder from the hidden recesses of nature's storehouse, but it remains for the government to find a practical means for its intelligent and useful application. The sixty odd millions of people who live in the little town of the country cannot afford two or three hundred dollars for patented wireless sets and yet the hope of the world lies in their contact with the scheme of things. Instantaneous world communication will put an end to destructive wars far sooner than all the disarmament that ever has been dreamed about, and the world will be enriched beyond our imagination through its agriculture when our farmers can sense each morning the needs and the pulse of all the people. A little pep mixed with vision and a realization that money spent in this way is money spent for public good will soon put Texas in touch with Broadway, and it will put the tiller of the soil so close to the Wall Street coupon clipper that misunderstanding and manipulation will melt before the sun of mutual knowledge. The government can do no more helpful thing than follow with the greatest earnestness and speed the Hays plan of broadcasting information and in a way that will permit those who need it most to get it without unreasonable cost.

PALISTINE NEWS

Everyone in the neighborhood of Palistine seems rather blue on account of the bad weather.

Miss H. Ashford spent Saturday afternoon with Miss M. Lantrip.

Miss Daisy Crews spent Saturday with Miss Birdie Miles.

Mr. Vernon Crews has been on the sick list during the past week.

Miss R. Gore spent Saturday night with Miss A. Foshum.

We hope every one turns out to Sunday School next Sunday.

GREENVILLE CITIZENS SCORE KU KLUX KLAN

Denounce Organizations After LeRoy Percy Speaks.

GREENWOOD, Miss., March 1.—Col. Jos. G. Comp of Atlanta, Ga., formerly of the Lyceum Bureau, now representing the Ku Klux Klan, spoke at the Court House in Greenville tonight to a crowd that filled the large auditorium to its capacity, with every foot of standing room space, the windows, doors and aisles crowded with men and women. Following Col. Camp's address the speaker and the Ku Klux Klan received a most scathing denunciation at the hands of Senator LeRoy Percy, who was followed by Dr. J. B. Smythe, who offered a resolution denouncing the Ku Klux Klan, which was adopted by an overwhelming majority of those present.

At the opening of the evening programme Senator Percy mounted the rostrum and offered a resolution that Sheriff L. M. Nicholson be named as chairman of the meeting, which was unanimously adopted. Col. Camp was introduced by the sheriff, spoke for an hour and a half on the Klan as an organization whose purpose is the safe-guarding the safety of the home, working for the moral uplift of the home, and aiding in the enforcement of the law. The speaker denounced the Roman Catholic Church from the Pope to the smallest individual, he denounced the Knights of Columbus, the Jew and all foreigners who have come to our country to take away from us that which we inherited from our forefathers. He declared that there was already an organization in Washington County which was growing daily. He was an eloquent speaker and his address won applause from time to time.

At the close of Col. Comp's address Senator LeRoy Percy was called upon and a more magnificent speech was never delivered in Washington County. Mr. Percy referred to the Ku Klux Klan as an outlaw organization going about their work behind masks and in clown suits, organized by a bunch of men for the profit and using the name Ku Klux Klan, because of its value, in gathering in membership. Mr. Percy spoke of the harmony existing between Catholic, Jew and gentile in Washington County, and how they had worked shoulder to shoulder in the fight against the invasion of the high waters of the Mississippi River, how they had paid taxes and worked for the upbuilding of the delta and declared that we do not need any mysterious organization to come in here and help us enforce our laws. He denounced the Klan in the wearing of the Klan costume and how the name of Ku Klux, let alone the Klan uniform, had terrorized the negro in the past and how a revival of the order in Washington County would strip Washington County plantations of its labor and cause grass to grow in the middle of the streets of Greenville. A pandemonium broke loose at the close of the Senator's speech and it was 10 minutes before the audience could be quieted to hear the resolution offered by Dr. J. D. Smythe, which denounced the Ku Klux Klan. Col. Camp made no effort to answer the severe rebuke meter out to himself and the order which he represented.

RAMSEY BACK HOME WITH YOUNG DRURY

HAZLEHURST, Miss., March 2.—Sheriff Henry E. Ramsey returned here today from Lafayette, Ala., bringing with him Milton Drury, 24-year-old son of Mrs. Ada Drury Conyer, whose charred and mutilated body was found near Dentville, Copiah County, and who the sheriff has charged with first degree murder in connection with his mother's death.

Little Helen Elizabeth, the sweet little daughter of Mr. and Mrs. A. D. Caulfield, was taken Thursday to the hospital at Memphis by her parents where she will receive treatment for the flu. Mrs. Caulfield will remain with her little daughter until her recovery.

DOES LAUNDRY WORK AND HOUSEWORK TOO

Surprised to Find Her-self Feeling So Well

Taunton, Mass. — "I used to have pains in my back and legs so badly, with other troubles that women sometimes have, that my doctor ordered me to stay in bed a week in every month. It didn't do me much good, so one day after talking with a friend who took Lydia E. Pinkham's Vegetable Compound for about the same troubles I had, I thought I would try it also. I find that I can work in the laundry all through the time and do my housework, too. Last month I was so surprised at myself to be up and around and feeling so good while before I used to feel completely lifeless. I have told some of the girls who work with me and have such troubles to try Lydia E. Pinkham's Vegetable Compound, and I tell them how it has helped me. You can use my testimonial for the good of others." — Mrs. BLANCHE SILVIA, 69 Grant St., Taunton, Mass.

It's the same story—one friend telling another of the value of Lydia E. Pinkham's Vegetable Compound.

THE PNEUMONIA MONTH.

March is a typical pneumonia month and usually gives a high rate of mortality for the disease. After a long and hard winter, the system loses much of its resistance and people grow careless. When every cold, no matter how slight, is given prompt and intelligent attention, there is much less danger of pneumonia. It should be borne in mind that pneumonia is a germ disease and breeds in the throat. Chamberlain's Cough Remedy is an expectorant and cleans out the germ laden mucus and not only cures a cold but prevents its resulting in pneumonia. It is pleasant to take. Children take it willingly.
